

## TipIt Easy Password App Setup

Open your TipIt Easy Password App and give yourself a PIN NUMBER.

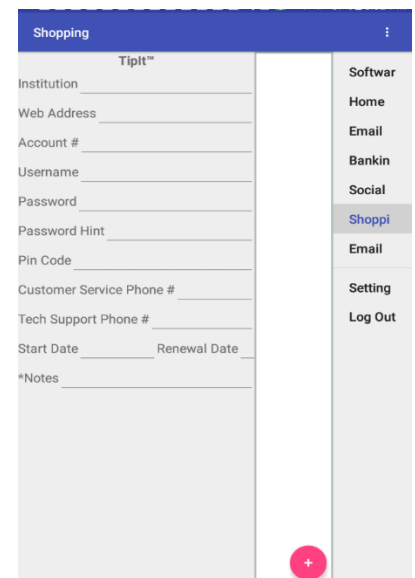

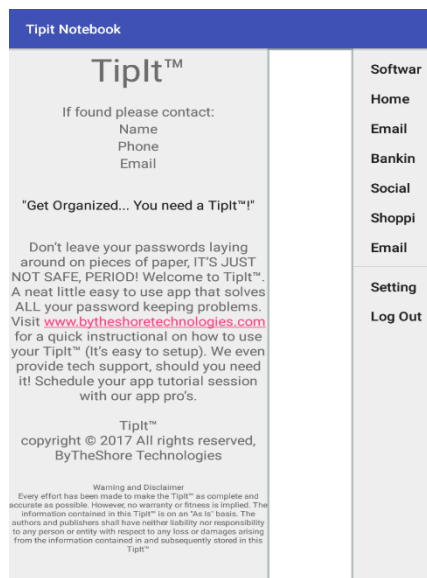

This is for your security >

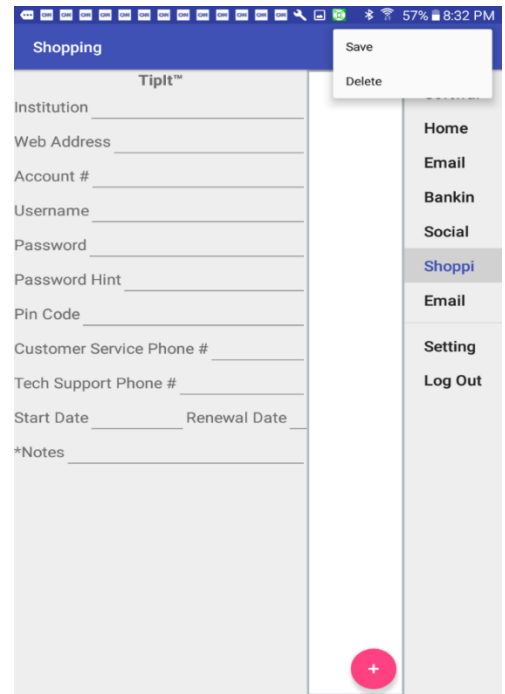

You can always change your PIN NUMBER later under settings>

Once you login TipIt, click your desired category, then click the red circle with the plus sign to type in information about that website >

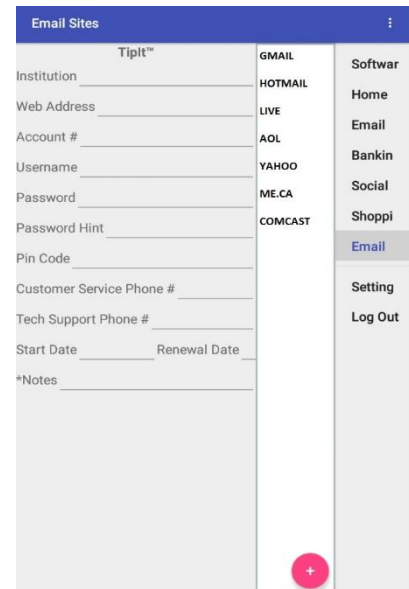

Now click the “Three Dots” (upper right area), and click save>

Your “Saved Websites” will show up in the white area for future use.

Never forget a password again>

Don't forget to **LOGOUT** of your TipIt Easy Password App, for your security!
